PROFESSIONAL SUMMARY

Certified and detail-oriented IT Project Manager with a solid academic background in Business Informatics. Proven track record of leading cross-functional development teams, managing software release cycles, and aligning technical milestones with corporate strategies. Strong expertise in agile methodologies, stakeholder communication, and proactive risk mitigation.

WORK EXPERIENCE

IT Project Manager 03/2023 – Present

TechCore Systems

Spearheaded cross-functional software development teams delivering complex, cloud-based web applications. Responsible for the full project lifecycle, resource allocation, and high-level stakeholder management. Successfully established agile workflows, increasing sprint velocity by 20 percent and consistently delivering deployments on time and within budget parameters.

Junior IT Project Manager 01/2021 – 02/2023

Digital Solutions GmbH

Coordinated and facilitated sprint planning sessions, daily stand-ups, and retrospectives for two parallel software development tracks. Tracked critical path milestones using Jira and Confluence while creating data-driven progress reports for executive leadership. Led successful onboarding initiatives for new remote engineering team members.

Project Management Assistant 08/2019 – 12/2020

InnoSpace Hub

Supported senior project leads in creating project documentation, maintaining risk registers, and preparing client presentations. Monitored timeline dependencies and served as the central internal contact for ticket lifecycle tracking and QA coordination prior to major software releases.

EDUCATION

B.Sc. in Business Informatics 09/2016 – 07/2019

Technical University of Munich (TUM)

Core academic focus on IT project management, enterprise architecture, and IT governance systems. Deepened knowledge in agile product management frameworks. Active member of the university's student-led tech consulting initiative.
