SKILLS

Python	SQL	AWS	Troubleshooting
Bash Scripting	Git	Network Security	
Linux Admin	Docker	Active Directory	

EXPERIENCE

Working Student - IT Infrastructure

 TechBase GmbH  Oct 2024 – Present  Berlin, Germany
Keywords: *Linux, Bash, Docker, Network Monitoring*

- Automated repetitive server deployment tasks using Bash scripts, saving 5 hours of manual work weekly.
- Managed internal user permissions and network security configurations within a hybrid active directory environment.

IT Support System Administration Intern

 ComputeX Solutions  Mar 2023 – Sep 2024  Remote, Germany
Keywords: *Windows Server, Ubuntu, Tier-2 Support, Troubleshooting*

- Resolved complex Tier-2 technical hardware and software issues for over 150+ internal remote employees.
- Configured, monitored, and maintained virtual machines and containerized staging environments.

EDUCATION

M.Sc. Computer Science

 Technical University of Berlin  2024 – Present

- Focus: Cloud Computing & Systems Engineering
- Current GPA: 1.4

B.Sc. Informatics

 University of Hamburg  2021 – 2024

- Final Grade: 1.6
- Thesis: "Security Optimization in Container architectures"

PROJECTS AND ACTIVITIES

Automated Lab Environment

Built a local homelab using Docker and Ansible

AWS Cloud Project

Deployed a highly-available web app infrastructure

University Computer Club

Active Member, organized local CTF hacking events

Open Source Contributor

Contributed infrastructure scripts to GitHub
